

Partial List of Leakwise System Installations by Country

CUSTOMER	INSTALLATION SITE	APPLICATION
USA		
Age Refining	Refinery	Detection of oil sheen in discharge after oil/water separation
Arco Products	Oil Refinery	Monitoring oil thickness in groundwater
Chevron	Oil Marketing Gas Station	Monitoring oil thickness in groundwater remediation wells
Con-Edison	Power Plants	Detecting oil leaks/spills in sumps of a tank farm
Dow Chemicals	Petrochemical Plants	Monitoring hydrocarbon thickness in a process tank
DuPont	Petrochemical Plant	Measuring hydrocarbon layer thickness in sump collecting cooling water
H2 Oil	Groundwater Recovery, Remediation Sites	Detecting oil sheen after treatment
McKenzie	Contamination Clean-Up	Control of remediation pumps
Orange & Rockland	Power Plants	Detecting leaks from valves and pipelines in large underground sump
Pacific Gas & Electric (PG&E)	Power Plants	Detecting sheen of lubrication oils on water in hydroelectric power plant before discharge
RZA AGRA	Environmental Consulting	Detecting oil sheen after treatment before discharge
Shell	Refinery and Terminal	Oil sheen detection in a retention pond after separator, and groundwater monitoring
Time Oil	Oil Marketing Terminal	Detecting oil leaks in sump near tanks
Tri Dam	Power Plants	Detection of lubricating in hydropower plants before discharge
Exxon	Baton Rouge Refinery	Oil thickness monitoring in underground water
Goodyear	Texas Tire Production Plant	Oil detection in storm water sumps
Potomac Electric	Transformer Switch Yard In Power Plant	Detecting oil thickness of insulating oil from transformers in switch yard
University of California	Power Plant	Monitoring of sump in transformer substation
Proctor & Gamble	Chemical Plant	Oil sheen detection in large retention ponds before discharge
Degen	Chemical Plant	Oil sheen monitoring in water discharge after separator
Norman Baragar Products / NBS	Navy Base	Groundwater monitoring
Denver Water Dept	Water Works	Monitoring water intake
Buckeye Pipeline	Pipeline	Sump monitoring in pumping station
Amtrack	Railway Company	Monitoring oil/water separator
Miyadi Labs	Edwards AFB	Oil detection in discharge retention tank
Tosco	Refinery	Sump monitoring
Alcan	Aluminum Plant	Sump monitoring
Emory Wilson	Power Plant	Sump monitoring
Edwards Air Force Base		Retention pond monitoring
Atkinson	Power Plant	Sump monitoring

CUSTOMER	INSTALLATION SITE	APPLICATION
Canada		
Transmountain Pipeline	Pipeline Pumping Stations	Detecting hydrocarbons on water in sumps of pumping stations
Dufasco	Steel Plant	Detecting oil leaks from transformers
Manitoba Hydro	Power Plant	Detecting oil sheen on cooling water and condensate in sumps
BC Hydro	Hydroelectric Power Plant	Detection of lubricating sump
BC Rail	Rail Company Terminal	Sump monitoring near tank
Transalta	Power Plant	Cooling water intake monitoring
Coastal Petroleum	Oil Terminal	Tanker loading area monitoring
Ontario Power Generation	Hydroelectric Power Plant	Oil sheen detection in general sumps
Mexico		
Pemex	Refinery	Detecting hydrocarbons in storm water sumps
United Kingdom		
Esso Pipeline	Pipeline Pumping Stations	Detecting oil sheen on water after separator before discharge
Esso	Scotland	Measuring oil thickness
BP	Kingsbury Oil Terminal	Monitoring water pond before discharge
FPSO Firenze	Tanker Ship	Oil on boiler condensate monitoring
Netherlands		
Dow Chemicals	Petrochemical Plant	Detecting hydrocarbons in a sump of pilot plant
RRPL Pipeline	Pipeline Pumping Station	Oil sheen detection in sumps
Sabic Geleen	NAK Crackers	225 oil level meter in a oil water separation tank
Nerefco	Refinery	Rainwater exhaust of tank farm roofs
EON Den Haag	Power plant	Cooling water outlet
EON Utrecht	Power plant	Cooling water outlet
Eastman Chemicals	Middelburg	Polymer plant; tanker farm - chemicals leakage
Maasvlakte	Oil Terminal	Exhaust of a oil water separator tank
Tennet Krimpen	Switch Station	Condenser and transformer oil leak detection
Tennet Doetinchem	Switch Station	Condenser and transformer oil leak detection
Germany		
Veba Oil	Refinery	Detecting hydrocarbons in a process tank
Veba	Power Station	Oil sheen detection in a water collecting sump
HEW	Hydroelectric Power Plant	Detecting sheen of lubricating
Esso	Oil Terminal	Detecting oil in a condensate tank of a vapor recovery system
Esso	Oil Terminal	Detecting oil in water discharge from road tankers washing system
Synthopol Chemi	Chemical Plant	Hydrocarbon detection in retention pond
Walter & Fuchs	Highway in Southern Germany	Detecting oil in highway storm water collection tanks

CUSTOMER	INSTALLATION SITE	APPLICATION
Elektro Kreuzpointer	Drinking Water Works	Monitoring the intake to drinking water works
Haindl Papier, Schngau	Paper Mill	Monitoring of cooling water to protect against catastrophic oil spills
Haarmann & Reimer, Holzminden	Chemical Plant	Detection of oil on process water in a retention tank
NWO Pipeline	North Sea Offshore Oil Loading Terminal	Detection of oil spills on sea during tanker ship's loading/discharging oil near a jetty
NWO Pipeline	Tank Farm	Monitoring a dike sump
Hoechst Trevia, Bobinge	Petrochemical Plant	Monitoring of cooling water discharge
Heemakerk Tlefbau	Parking Lot of a Large Supermarket	Monitoring water discharge
France		
Enterprise Industrielle	Highway near City of Lyon	Detecting oil in highways storm water collection sumps
Environmental Service	Environmental Contractor	Detecting and monitoring oil in groundwater monitoring wells
Esso	Refinery	Monitoring oil sheen after API separator
Beckers Ind.	Dyes & Paint Plant	Hydrocarbn detection in storm water sump
Degremont	Orly Airport	Oil sheen detection in storm water retention ponds
City of Marseille	Wastewater Plant	Monitoring inlet to plant
EDF	Power Plant	Monitoring water tank before discharge
Austria		
IPC Holding Rt.	Petrochem Plant in Hungary	Groundwater monitoring
Italy		
Trans Alpine Pipeline	Siot Tank Terminal	Monitoring of floating roof water drainage pipe
ENEL	Hydroelectric Power Plants	Detecting lubricating before discharge
Enichem	Petrochem Plant	Oil detection after water separation
Norway		
Esso Norway	Refinery	Oil thickness monitoring in retention ponds
Israel		
Israel Water Board	Various Contaminated Sites	Transportable detector for monitoring multiple sites
Israel Power Company	Electric Power Gas Turbine Plants	Oil detection before & after separation
Taiwan		
Chinese Petroleum Company (CPC)	Oil Terminals	Leak detection in groundwater monitoring wells, and oil thickness monitoring in sumps
CPC	Oil Refinery	Leak/spill detection in sumps near above ground tanks

CUSTOMER	INSTALLATION SITE	APPLICATION
Singapore		
Tank-Store	Storage Terminal	Monitoring water discharge to sea after separation
Japan		
Thai Polyethylene	Petrochemical Plant	Monitoring of a cooling water pipeline
Koa Oil Company	Mariba Refinery	Oil thickness monitoring storm water sumps
Korea		
Yukong	Refinery	Oil sheen detection in a retention canal
Dopco	Pipeline Tank Farm	Monitoring sumps in storm water channels
Australia		
Australian Rail Co.	Diesel Tank Farm	Leak/spill detection in sumps near above ground tanks
Air Company	Remediation Site at Airport Oil Storage	Groundwater monitoring during remediation
Mobil	Oil Terminal Victoria	Sump monitor near tanks
Pacific Power	Transformer Substation	Monitoring leaks of insulating oil
Sydney Airport	Refueling Terminal	Monitoring retention pond
Electro Corp. NZ	Transformer Substation	Monitoring of transformer leaks
Kangaroo Valley Power Station	Hydro Power Plant	Hydroelectric turbine sump monitoring
Snow Mountain Authority (SMA)	Hydropower Plant	Monitoring sump under turbine
Esso	Terminal	Sump monitoring
City Link	Tunnel In Melbourne	Discharge monitoring
Castrol	Oil Storage	Tank dike monitoring
